

## RUSH SR Fluid Chart

**Engine Oil:** Mobil 1 Racing 4T 10W-40

Change oil and filter every 8 hours. Use 3qt. (No filter change) or 3 ½ qt. (filter change)

**Engine Filter:** K&N Performance KN-138

**Air Filter:** Suzuki 13780-47H10 or KN SU-9915

**Differential Oil:** Royal Purple SAE 75W-140

**Brake Fluid:** AP Racing 600 Racing Brake Fluid

Or use equivalent non-synthetic DOT4 with a boiling point in excess of 570°F

**Chain Wax:** Maxima Chain Wax

**Fuel:** Any 91/93 octane (Premium) fuel

E10/Ethanol blends are ideally avoided, but are ultimately not harmful. However, when storing the car for a period of 2 months or greater, especially with an ethanol blend, drain the fuel as completely as possible and refill on the day you will run.

**Coolant:** Distilled water with Red Line Water Wetter

We recommend against using antifreeze in any race car due to environmental and safety issues in an incident where the coolant dumps from the car.
